Petersburg, Va., January 2.—A slight accident occurred last night to the northbound through passenger train on the Atlantic Coast Line Railroad, due here at 7 o'clock. Between Reams's Station and Collier's, a few miles south of the city, by the breaking of the tire or flange of a wheel, one of the rear coaches was derailed, and the track was damaged for a short distance. The coach was not otherwise damaged, and its passengers, though somewhat shaken up, were not injured. The passengers in the rear coaches were transferred to the front cars, and the train, after some delay, proceeded on its way. A wrecking car and crew were brought to the scene from Richmond, and the work of setting things straight was begun as soon as possible. The most serious inconvenience resulting from the accident was the delay caused to trains north and southbound. The track is all right to-day, and trains are running regularly.

En Route to Wed.
Edwin Grady Sinclair, a popular young pharmacist of Waverly, connected with Dr. John H. May's pharmacy at that place, passed through the city to-day, en route to Cary, N. C., where tomorrow he will be married to Miss Laura Upchurch, a prominent young society woman. After their bridal trip North they will be at home in Waverly.

Children Receive Gifts.
Six hundred sets of candles, with fruits and dolls and other things, were given out to children of the poorer classes last night at the Salvation Army hall, and the scene was an interesting and enjoyable one. Last week a large quantity of substantial necessities were distributed to families by the Salvation Army, and the children's time came last night. Next Friday evening colored children are to be remembered in the same manner by the army.

\$500 FUND FOR FARM DEMONSTRATION WORK

County Appropriation Increased by
Private Donations—Dug Supposed
to Be Mad Killed.

(Special to The Times-Dispatch.)
Petersburg, Va., January 2.—The
Board of Supervisors of Spotsylvania
county at their meeting last evening
appropriated \$400 for farm demon-
stration work in Spotsylvania county.
This was supplemented by a private
donation of \$50 by Lee J. Graves, of
this city, and an additional donation
of \$50 by the Farmers and Merchants'
State Bank of Fredericksburg, making
\$500. The State and United States
government will equal this amount,
making a total fund for the county to
be used in 1912 \$1,000. T. O. Sandy,
of the Department of Agriculture, ap-
peared before the board, advocated the
appropriation, and explained the bene-
fits that would be derived from the
test of farm demonstration work. He
was seconded in brief addresses by
Captain M. B. Rowe, Professor E. H.
Russell and others.

The official body of the Methodist
Church of this city at its meeting last
night increased the salary of its pas-
tor, Rev. J. H. Jacobs, by \$300 per
year, the increase to apply with the
beginning of 1912.

Fire last night destroyed the store-
house and stock of goods of Atchison
Sullivan, in the north end section of

caught on fire, but the flames were
extinguished by the fire department.
The loss was partially covered by in-
surance in both cases.

streets yesterday biting at other dogs
and pedestrians on the street. Officer
W. N. Tanhill secured his gun and
followed the dog across the Free
Bridge in Stafford county, where he
shot it. The head was brought here
and Health Officer Dr. J. N. Barney will
send it to experts in Washington for
examination and report. Mayor H.
Lewis Wallace has issued a proclama-
tion requiring all dogs to be either
confined or muzzled for a period of
ten days, until the result of this ex-
amination can be known.

I. H. Middleton, who has been for
some years doing a jewelry and opti-
cal business in this city, has made
an assignment for the benefit of his
creditors, with Benjamin Purvis as
trustee. The amount of the assets and
liabilities are not yet known.

The Board of Supervisors of Spotsyl-
vania county has limited the hunting
season to January 15. The time named
by the Legislature was January 1, but
owing to the large number of hunters
and the scarcity of game for breeding
purposes this action was taken.

The City School Board has elected
Mrs. Emma Owens Ellis, of this city,
a teacher in the public school. All
the place made vacant by the resigna-

Report From Smithfield.
(Special to The Times-Dispatch.)
Smithfield, Va., January 2.—With threats
to dynamite and burn yet unfulfilled,
there was an aspect of exterior quiet
to-night at the camp of unpaid Italian
laborers, about two miles from Smith-
field.

Sheriff Edwards this afternoon con-
sulted Governor Mann by telephone
about the ordering out of troops and
the Governor later had a conference
with Colonel J. W. Holloway, of Smith-
field, a member of his staff.

Sheriff Edwards said over the long
distance telephone to-night that the
Italians threatened to lock up United
States Receivers J. L. Head and John
T. Reid to-day, but the officials, who
had gone on an amicable errand, were
saved from harm by the intervention of
an interpreter, who stayed their hands
for a time by promises of long delayed
salaries.

The commissioner, who had been turn-
ishing food from his own resources,
in hope of being reimbursed by Sher-
iff Edwards, to-day gave notice that
the supply would be discontinued.
There is enough food in camp to last
only two days.

A movement was started this after-
noon to raise a pool of money sufficient
to remedy the situation until relief can
come through the United States court,
which already has enjoined the Italians
against violence.

Governor Assured That Italian

PLANT IN RECEIVERSHIP
Lumber Mill Employees Near
Smithfield Grew Violent When
It Closed Down.

Assured that prompt steps would
be taken to raise funds and so bring
about a peaceful settlement of the
difficulties, Governor Mann decided
last night that it would not be nec-
essary to call out State troops to pro-
tect property at Smithfield, in Isle
of Wight county. Colonel Holloway,
of the Governor's staff, is on the ground,
and will advise the executive if fur-
ther steps are necessary.

Early yesterday the Governor was
notified by the sheriff of Isle of Wight
county of threats of rioting about a
sawmill near Smithfield. It seems that
a large lumber company operating in
that vicinity went into bankruptcy
last week, the papers being filed in the
United States District Court at Nor-
folk, and receivers were appointed by
Judge Edmund Waddell, Jr., to take
charge of the plant, which was at once
closed down. The lumber company
had imported a large number of Italian
laborers, who are stranded, practical-
ly without means of support since last
Wednesday. The receivers have not
yet been able to raise sufficient
funds to pay off the men up to the
time the plant was closed, and it was
time the plant was closed, and it was
over the delay in receiving this pay
for which they have worked that the
controversy has arisen.

Following the receivership, Judge
Waddell granted an injunction
restraining the operatives from inter-
fering with the property of the company,
or hampering the receivers in taking
charge, and United States Marshal
Smithers and his deputies have been
on the ground for several days. Yes-
terday the situation became acute. The
men demanded their pay, threatening
to dynamite the works, and the local
authorities notified the Governor of
impending trouble, while the United
States marshal communicated with
the commandant at Fort Monroe in the
event that it became necessary to take
drastic steps to enforce the injunction
of the Federal court.

Governor Mann held a long distance
telephone conference with Judge
Waddell, who was holding court in
Alexandria yesterday, and later talked
with Colonel Holloway, the resident
member of his staff at Smithfield. The
Governor was assured that the receiv-
ers would take the proper steps to raise
sufficient funds to pay off the men,
whose claim is prior to that of other
creditors.
